QUALITY POLICY POLITICA DELLA QUALITA'

1 PURPOSE

The aim of the following procedure is to describe the quality policy, which represents the commitment of the company management to guarantee compliance, implementation and continuous improvement of the quality management system.

2 QUALITY POLICY

"BUGATTI AUTORICAMBI SPA", operating in the Automotive industry, subscribes, through the Company Management, the commitment to actuate the quality policy, in accordance to the following points.

- The primary objective of our company is the satisfaction of the customer, in terms of product quality, service, aftersale support, and price.
- The continuous technologic evolution and the subsequent increase of the quality standards asked by the market, mean that being chosen by clients is a proof of excellence in quality, reliability and service.
- In order to reach these standards, "BUGATTI AUTORICAMBI SPA" wants to promote and support the following activities:
 - Maintenance of a Quality Management System in the company, according to UNI EN ISO 9001: 2015.
 - Designation of a Quality Assurance Manager inside the company, in order to guarantee the management of the Quality Program;
 - Involvement of company staff at all levels in the application and development of the Quality System;
 - Execution of Quality training both inside the Company and externally, among suppliers;
 - Extension of informations and links in all of the company sectors, asking all parts to actively participate in the creation of products that fully meet customers expectations;
 - Promotion of continuous improvement of the effectiveness of the Quality System, and therefore of the company's reliability;
 - Direct training activities towards customer satisfaction;
 - Train, inform, and sensitize all its workers to perform their duties, making them aware of their individual obligations, the importance of their actions to reach the expected results and their responsibilities.

The Company Management establishes a series of annual objectives for the quality system, defined by parametric targets, to which the organization must aim in order to confirm the correct actuation of the quality system and its development;

These targets will be yearly formalized in a document, to be verified by the management review.

QUALITY POLICY POLITICA DELLA QUALITA'

More in details, the Management defines the objectives, the indicators and the responsibilities, taking as a reference: The analysis of its context, the needs and expectations of the interested parts, the conformity obligations, its own risks and opportunities, and the risks for health and safety at work.

Only with the total commitment of each referent and each operator, the company will be able to reach its objectives, which are essential for the continuous growth of our company.

The Company Management
