

# WATER PUMPS, TIMING BELT KIT WITH WATER PUMPS

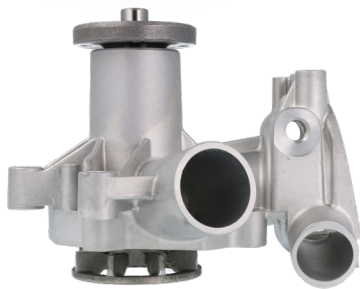

November 2021

**IT** Bugatti Autoricambi S.p.A. è specializzata nella progettazione, produzione e commercializzazione di pompe acqua per l'aftermarket di automobili e veicoli industriali leggeri. Fondata nel 1972, l'azienda esporta oggi in tutto il mondo, serve distributori del settore automotive e si colloca, con il suo milione di pezzi annui, tra i primi quattro produttori di pompe acqua in Italia e tra i primi otto in Europa. Con un magazzino che offre più di 800 referenze disponibili subito e uno stock di prodotti che copre oltre 10.000 differenti tipologie di applicazioni, Bugatti Autoricambi vanta elevati standard qualitativi e tempi brevissimi di evasione degli ordini (il 95% è evaso entro due settimane), sia perché impiega componenti e materie prime di provenienza esclusivamente europea, sia perché realizza in house la totalità del processo produttivo delle proprie pompe acqua, dalla progettazione alla pressofusione, dalle lavorazioni intermedie al confezionamento. Dotata di una unità produttiva e di una sede che si sviluppano su un'area di 24.000 mq (di cui 12.500 coperti) a Castegnato (BS), Bugatti Autoricambi ancora oggi punta a rafforzare i motivi del proprio successo: i prezzi competitivi; la capacità di soddisfare anche le richieste urgenti; la grande disponibilità di prodotti e la loro elevata qualità per resistenza, durata e conformità a standard e tolleranze.

**EN** Bugatti Autoricambi S.p.A. is specialized in the design, manufacture and sale of water pumps for cars and light commercial vehicle. Established in 1972, we now export worldwide, serve distributors in the automotive industry and, with our million parts per year, rank amongst the top four water pump manufacturers in Italy and amongst the top eight in Europe. With a warehouse offering more than 800 off-the-shelf models and product stock covering over 10,000 different types of applications, Bugatti Autoricambi boasts high standards of quality and extremely short lead times (with 95% of orders dispatched within two weeks). This is because we use components and raw materials sourced exclusively from European suppliers and because our entire water pump production process is carried out in-house, from design through to die casting, from machining through to packaging. Working out of a 24,000 sq metre production and office facility (with internal floor space accounting for a 12,500 sq metre share) located in Castegnato in the province of Brescia in Northern Italy, we are still focused on strengthening the reasons behind our success: competitive pricing; the ability to meet even rush orders; extensive stock of products and their high quality in terms of resistance, service life and conformity to standards and tolerances.
